

## HIPAA POLICIES AND PROCEDURES

MetaStar offers Policies and Procedures in order to help providers, practices and clinics ensure they have the documentation needed to comply with the HIPAA Security Rule. Our experience with Security Risk Assessments has shown that Policies and Procedures are a common area where many practices would appreciate advice and legal expertise to get started. This service offers an affordable option for the natural next step beyond sample templates.

MetaStar's Security Lead, Brad Trudell, JD, works with customers to provide customized policies needed for HIPAA security.

Our service includes:

- Expert guidance on 13 policies you need for HIPAA security compliance
- Identification of gaps in your HIPAA security policies
- An electronic version of the 13 policies customized for your practice or clinic and a binder for your completed, finalized policies
- Peace of mind knowing you've helped reduce your risk of failing a HIPAA audit and being subject to substantial penalties

*"This service made standard policy templates much more understandable. This was a tremendous help. I always felt as though I could call and MetaStar would be there to help."*

— Michael Ovitsky, Ovitsky Vision Care

## ADDITIONAL SERVICE OPTION

For customers who desire assistance updating existing policies with expert guidance, consultation on policy implementation, or any other individualized approach, contact us for custom policy writing services.
